

Safety Instructions

- This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the appliance.
- If the power cord is damaged, it must be replaced by a special cord or assembly available from the manufacturer or its service agent.
- Prior to cleaning or other maintenance, the appliance must be disconnected from the power supply.
- The appliance contains a UV-C emitter.
- Users are not permitted to replace the UV-C emitter by themselves.
- Appliances that are obviously damaged must not be operated.
- Unintended use of the appliance or damage to the housing may result in the escape of dangerous UV-C radiation. UV-C radiation may, even in little doses, cause harm to the eyes and skin.
- Before use, insert the power plug firmly into the power outlet and maintain a secure contact between the plug and the outlet.
- When a power outlet with an extension cord is required, ensure it complies with national standards.
- When the product makes abnormal noises, emits odors, overheats, or has other errors, immediately stop using it, turn it off, and disconnect the power supply.
- Power supply to the product should not be drawn from a lamp holder with a power outlet.
- The total rated current value of the product connected to the power outlet with an extension cord should not exceed the rated current value of the original fixed outlet or circuit.
- Do not use the product near flammables or explosives, or in similar environments.
- Do not attempt to disassemble the product or alter the internal wiring, parts, or protective devices.
- Do not unplug the product by pulling the power cord.
- Do not attempt to replace the fuses of the product and the power supply with ordinary electric conductors or fuses that exceed the specified current capacity.
- Do not attempt to modify the setting values of the low-voltage circuit breaker or residual current device.

Moving	⚠ Before moving the product, set it on standby and unplug it.
Installation	• If the filter or filter compartment cover is not properly installed, the product cannot be turned on. • The product should be kept at a distance of at least 25 cm from walls or other obstacles.
Cleaning	• Frequently cleaning dust, hair, and debris from the outer surface of the filter helps minimize bacterial growth. • Removing dust and debris from the air purifier's air inlet grille helps prevent a reduction in air intake. • When the product is not used for an extended period, it is recommended to store it in the packaging box or cover the air inlet/outlet grilles and filter compartment cover to prevent dust buildup.
Power supply	Use the power cord and power outlet as instructed to avoid fire, electric shock, and other damage: • Do not excessively pull, twist, or bend the power cord, as this may expose or break its core. • Use only the power outlet that matches the power cord. • Use the power cord provided with the air purifier rather than any third-party power cord.
During use	• Immediately stop using the air purifier if any abnormalities arise, such as unusual sounds, odors, overheating, or irregular fan rotation. • Do not insert your fingers or any foreign objects into the air inlet/outlet grilles or filter compartment cover. • Keep hair or fabrics away from the air purifier to prevent them from being caught in or blocking the air inlet/outlet grilles. • Do not sit on, lean on, or tilt the product. • When using the air purifier in conjunction with household gas-fueled appliances (such as gas stoves and gas heaters), ensure adequate ventilation to prevent carbon monoxide poisoning. • Do not pour liquids or throw powders or other small substances into the air purifier through the air inlet/outlet grilles or filter compartment cover.
Usage restrictions	• Avoid prolonged use in high-fume environments, as this may accelerate filter failure. • Do not place the air purifier on unstable surfaces prone to tipping over. • Do not place the air purifier in hot, humid, or damp environments such as bathrooms. Do not use the air purifier in the following circumstances, as this may result in fire, electric shock, or other damage: ⚠ Keep the product, especially the air inlet grille, away from open-flame appliances (such as candles, incense burners, stoves, fireplaces, cigarettes, cigaretters, lighters, electronic ignition spray guns, candle lighters, or fire pans). ⚠ Keep the product away from high-temperature heat-generating appliances (such as electric heaters, fan heaters, foot warmers, electric stoves, or electric irons), and prevent flammables from entering it.

Product Overview

Note: Illustrations of product, accessories, and user interface in the user manual are for reference only. Actual product and functions may vary due to product enhancements.

Package contents: Air purifier, filter × 2, power cord, user manual, image guide.

Display

How to Install

Placing the air purifier

For efficient operation of the air purifier, ensure the filter compartment cover and the air inlet/outlet grilles on both sides are kept at a safe distance from any walls or obstacles when the air purifier is in operation (refer to the figure below).

Installing filters

As shown in the figure, open the filter compartment cover, remove the upper and lower filters, take them out of their packaging bags, and install the filters.

CAUTION:
Ensure the packaging bags of filters are removed before use.

Connecting to power supply

Connect the power cord to the power port and then plug it into a power supply.

How to Use

On/Standby

Tap the on/standby button to turn on the air purifier or set it on standby.

Adjusting display brightness

Tap the brightness button to cycle through display brightness: Bright, medium, dim, and off.

Switching operation modes

Tap the mode button to cycle through the operation modes: Level 1, level 2, level 3, automatic, sleep, and manual.

Switching display content

Tap the display button to cycle through the display content: PM2.5 value, dust index, and PM1 value.

Tap and hold the display button for 2 seconds to switch to the graph view of the current display. If there is no operation within 30 seconds or if you tap any button other than the on/standby button, the display content will switch back to the value or index.

Connecting with the Xiaomi Home app

This product works with the Xiaomi Home app. Use the Xiaomi Home app to control your device, and to interact with other smart home devices.

Scan the QR code to download and install the app. You will be directed to the connection setup page if the app is installed already. Or search for "Xiaomi Home" in the app store to download and install it. Open the Xiaomi Home app, tap "+" on the upper right, and then follow the instructions to add your device.

F51CF166

Note: The version of the app might have been updated, please follow the instructions based on the current app version.

Filter status notifications

Notes: Filters contain activated carbon. When the carbon becomes saturated with adsorbed harmful gases, odors may develop. It is recommended to keep filters in a well-lit and well-ventilated place for an extended period to reactivate the carbon, partially restore its adsorption capacity, and reduce odors. If a filter reaches the end of its recommended service life, replace it in a timely manner.

Filter installation

The air purifier does not detect the filters. Reinstall the filters by pushing them fully into the filter compartments.

Filter lifespan

When the filter lifespan is greater than 5%, disconnect and reconnect the power cord, or open the filter compartment cover and then turn on the air purifier. The display will show the percentage of remaining filter lifespan.

Filter replacement

When the filter lifespan is 5% or less, the percentage of remaining filter lifespan will appear on the display each time the air purifier is turned on. The filter replacement cycle is 6–12 months.

Replacing filters

⚠ WARNING: Ensure that the air purifier is in standby mode and disconnected from the power supply before performing the following operations. Be sure to remove the packaging bags of new filters before installing them.

Open the filter compartment cover, grasp the handle, and remove the old filters. Insert the new filters while keeping the handle upward and outward, and close the filter compartment cover.

Notes: Replace both filters at a time to avoid compromising the purification performance. Please purchase genuine and compatible filters from official channels.

Be sure to use a filter that is compatible with the air purifier.

- Model: AFEP7TFM35-GL

- Dimensions: ϕ 245 × H200 mm

Resetting filters

After replacing the filters, press and hold the display button for 7 seconds. The display will show the filter lifespan at 100%, indicating the filters are successfully reset.

Resetting Wi-Fi

For first-time or failed connection to the Xiaomi Home app, press and hold the brightness button for 7 seconds. When the display prompts "Open the Xiaomi Home app to start connecting", Wi-Fi is reset successfully.

Enabling/Disabling Wi-Fi

Wi-Fi is enabled by default. When the air purifier is on, simultaneously press and hold the brightness button and mode button for 7 seconds to enable or disable Wi-Fi. Wi-Fi indicator lights up when Wi-Fi is enabled, and goes off when Wi-Fi is disabled.

Restoring factory settings

When the air purifier is turned on, press and hold the brightness button and display button simultaneously for 7 seconds to restore factory settings. When the air purifier restarts after a beep is heard, it is successfully restored to factory settings.

Enabling/Disabling the child lock function

Press and hold the mode button for 7 seconds to enable or disable the child lock function.

Care & Maintenance

⚠ WARNING: Ensure that the air purifier is in standby mode and disconnected from the power supply before performing the following operations. It is recommended to clean and maintain the air purifier every 3 months.

Cleaning the laser particle sensor

As shown in the figure, use a blunt tool to open the laser particle sensor's compartment cover, and use an air gun or blower to clean the compartment cover filter and sensor.

Cleaning the air purifier

Use a soft cloth to gently wipe dust from the surface of the air purifier. Open the filter compartment cover and remove the filters to clean the filter compartment.

CAUTION:

Do not use hot air.

CAUTION:

Do not rinse or spray the air purifier housing with water, and do not wipe it with a dripping wet cloth, as this may allow water droplets to enter the air purifier.

Troubleshooting

Errors	Possible Causes	Solutions
The air purifier cannot be turned on.	The power cord is not properly connected.	Properly connect the power cord.
	The filter compartment cover is not properly installed.	Properly reinstall the filter compartment cover.
	The filters are not properly installed.	Reinstall the filters by pushing them fully into the filter compartments.
	The power outlet malfunctions.	Plug the air purifier into a functioning power outlet.
The air purifier cannot be connected to the network.	The selected network is a 5 GHz network that this product does not support.	Connect to a 2.4 GHz network.
	The selected network is an enterprise 802.1X network or requires web authentication.	Use a home network.
	Router settings are incorrect.	Set the router's Wi-Fi encryption method to WPA/WPA2 and enable the automatic IP address assignment (DHCP) function.
There are odors.	The new filter has a natural smell.	The non-toxic, harmless smell will dissipate as the new filter is unwrapped and kept in a ventilated place or used for an extended period. Operating the air purifier in level 3 mode in a ventilated place may help expedite dissipation.
	The filters have not been replaced for a long time.	Keep filters in a well-lit and well-ventilated place for an extended period. If a filter reaches the end of its recommended service life, replace it in a timely manner.
	The filter gets moldy due to high humidity.	Replace the filter in a timely manner.
There is a sudden rise in the PM2.5 value.	Water mist and fumes from smoking, cooking, or operating a humidifier are detected as particles by the air purifier.	Once these activities stop, operate the air purifier for an extended period to allow the values to stabilize.

Regulatory Compliance Information

Europe — EU declaration of conformity

 Hereby, Xiaomi Communications Co., Ltd. declares that the radio equipment type AC-M35-SC is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address: <https://www.mi.com/global/support/terms/declaration>

 The product is in compliance with UK PSTI regulations, the full text of declaration of conformity is available at the following internet address: <https://www.mi.com/global/support/terms/declaration>

Disposal and recycling information

 All products bearing this symbol are waste electrical and electronic equipment (WEEE as in Directive 2012/19/EU) which should not be mixed with unsorted household waste. Instead, you should protect human health and the environment by handing over your waste equipment to a designated collection point for the recycling of waste electrical and electronic equipment, appointed by the government or local authorities. Correct disposal and recycling will help prevent potential negative consequences to the environment and human health. Please contact the installer or local authorities for more information about the location as well as terms and conditions of such collection points.

Description of network interfaces			
Name	Default	Description	
Wi-Fi	Open	The interface is used for internet connection and network configuration.	
Bluetooth	Open	The interface is used for network configuration.	
DHCP	Open	The service is used for network configuration through equipment hotspot.	
UDP54321	Open	1. The port is for communication during AP network configuration. 2. The port is for local communication with the Mi Smart Home Hub.	

Wi-Fi Status	Awaiting Connection	Connected	Disabled
Icon	 Blinking	 Stays on	 Stays off

Note: The equipment will use and save the Wi-Fi name and password for network connection.

Specifications

Name: Air Purifier
Model: AC-M35-SC
Item Dimensions: 280 × 280 × 713 mm
Net Weight: Approx. 7.9 kg
Applicable Area: 53-91 m²*
Rated Voltage: 200-240 V~
Rated Frequency: 50/60 Hz
Rated Power: 60 W
Particle Clean Air Delivery Rate (PCADR): 760 m³/h*
Formaldehyde Clean Air Delivery Rate (Single Component Loading): 200 m³/h*

*Measured according to GB/T 18801-2022.
Purification Mechanism: When airborne pollutants pass through the filter, solid particles are captured by the melt-blown layer, formaldehyde is quickly decomposed upon contact with active chemicals, and TVOCs along with odors are adsorbed by activated carbon, ensuring effective air purification.

Noise: 66 dB(A)
Noise in Sleep Mode: 33 dB(A)
Types of Target Pollutants Removed: Particulate matter, Formaldehyde, H1N1
Power Consumption
· Networked standby mode: ≤ 2.0 W
· Off mode: ≤ 0.3 W
Time to Enter the Condition
· Networked standby mode: ≤ 20 min
Wireless Connectivity: Wi-Fi IEEE 802.11b/g/n 2.4 GHz

RF Specification:
Wi-Fi Operation Frequency: 2400-2483.5 MHz
Wi-Fi Maximum Output Power: < 20 dBm
Bluetooth Operation Frequency: 2400-2483.5 MHz
Bluetooth Maximum Output Power: < 10 dBm
Under normal use conditions, this equipment should be kept a separation distance of at least 20 cm between the antenna and the body of the user.

Manufacturer: Xiaomi Communications Co., Ltd.
Address: #019, 9th Floor, Building 6, 33 X'erqi Middle Road, Haidian District, Beijing, 100085, China

WARRANTY NOTICE

THIS WARRANTY GIVES YOU SPECIFIC RIGHTS, AND YOU MAY HAVE OTHER RIGHTS CONVEYED BY LAWS OF YOUR COUNTRY, PROVINCE OR STATE. INDEED, IN SOME COUNTRIES, PROVINCES OR STATES, CONSUMER LAW MAY IMPOSE A MINIMUM WARRANTY PERIOD. OTHER THAN AS PERMITTED BY LAW, XIAOMI DOES NOT EXCLUDE, LIMIT OR SUSPEND OTHER RIGHTS YOU MAY HAVE. FOR A FULL UNDERSTANDING OF YOUR RIGHTS WE INVITE YOU TO CONSULT THE LAWS OF YOUR COUNTRY, PROVINCE OR STATE.

1. LIMITED PRODUCT WARRANTY

XIAOMI warrants that the Products are free from defects in materials and workmanship under normal use and use in accordance with the respective Product user manual, during the Warranty Period. The duration and conditions related to the legal warranties are provided by respective local laws. For more information about the consumer warranty benefits, please refer to Xiaomi's official website <https://www.mi.com/global/support/warranty>. Xiaomi warrants to the original purchaser that its Xiaomi Product will be free from defects in materials and workmanship under normal use in the period mentioned above. Xiaomi does not guarantee that the operation of the Product will be uninterrupted or error free. Xiaomi is not liable for damages arising from non-compliance with the instructions related to the use of the Product.

2. REMEDIES

If a hardware defect is found and a valid claim is received by Xiaomi within the Warranty Period, Xiaomi will either (1) repair the product at no charge, (2) replace the product, or (3) refund the Product, excluding potential shipping costs.

3. HOW TO OBTAIN WARRANTY SERVICE

To obtain warranty service, you must deliver the Product, in its original packaging or similar packaging providing an equal degree of Product protection, to the address specified by Xiaomi. Except to the extent prohibited by applicable law, Xiaomi may require you to present proofs or proof of purchase and/or comply with registration requirements before receiving warranty service.

4. EXCLUSIONS AND LIMITATIONS

Unless otherwise stipulated by Xiaomi, this Limited Warranty applies only to the Product manufactured by or for Xiaomi and identifiable by the trademarks, trade name or "Xiaomi", "Mijia" or "Mi" logo. The Limited Warranty does not apply to any (a) Damage due to acts of nature or God, for example, lightning strikes, tornadoes, flood, fire, earthquake or other external causes; (b) Negligence; (c) Commercial use; (d) Alterations or modifications to any part of the Product; (e) Damage caused by use with non-Xiaomi products; (f) Damage caused by accident, abuse or misuse; (g) Damage caused by operating the Product outside the permitted or intended uses described by Xiaomi or with improper voltage or power supply; or (h) Damage caused by service (including upgrades and expansions) performed by anyone who is not a representative of Xiaomi.

It is your responsibility to backup any data, software, or other materials you may have stored or preserved on the product. It is likely that the data, software or other materials in the equipment will be lost or reformatted during the service process, Xiaomi is not responsible for such damage or loss.

No Xiaomi reseller, agent, or employee is authorized to make any modification, extension, or addition to this Limited Warranty. If any term is held to be illegal or unenforceable, the legality or enforceability of the remaining terms shall not be affected or impaired.

Except as prohibited by laws or otherwise promised by Xiaomi, the after-sales services shall be limited to the country or region of the original purchase.

Products which were not duly imported and/or were not duly manufactured by Xiaomi and/or were not duly acquired from Xiaomi or a Xiaomi's official seller are not covered by the present warranties. As per applicable law you may benefit from warranties from the non-official retailer who sold the product. Therefore, Xiaomi invites you to contact the retailer from whom you purchased the product.

The present warranties do not apply in Hong Kong and Taiwan.

5. IMPLIED WARRANTIES

Except to the extent prohibited by applicable law, all implied warranties (including warranties of merchantability and fitness for a particular purpose) will have a limited duration up to a maximum duration of this limited warranty. Some jurisdictions do not allow limitations on the duration of an implied warranty, so the above limitation will not be applied in these cases.

6. DAMAGE LIMITATION

Except to the extent prohibited by applicable law, Xiaomi shall not be liable for any damages caused by accidents, indirect, special or consequential damages, including but not limited to loss of profits, revenue or data, damages resulting from any breach of express or implied warranty or condition, or under any other legal theory, even if Xiaomi has been informed of the possibility of such damages. Some jurisdictions do not allow the exclusion or limitation of special, indirect, or consequential damages, so the above limitation or exclusion may not apply to you.

7. XIAOMI CONTACTS

For customers, please visit the website: <https://www.mi.com/global/support/warranty>

The contact person for the after-sale service may be any person in Xiaomi's authorized service network, Xiaomi's authorized distributors or the final vendor who sold the products to you. If in doubt please contact the relevant person as Xiaomi may identify.
